Fabric tool bag h905_27

Tool bag in resistant technical fabric, with rigid base and large compartments. Dimensions: W 45 x D 25 x H 33 cm.

The **h905_27 tool bag** is designed to offer maximum resistance and practicality to professionals who need an organized space to transport their tools. Made of **high-resistance technical fabric** and equipped with a **rigid structure**, this bag guarantees protection and durability over time, even in the most demanding work contexts. The **rigid plastic base** provides an additional level of protection for the contents, preventing tools from being subjected to accidental impacts or falls.

The bag features two **large separate compartments**, perfect for organizing tools according to need, and a series of **multiple pockets and internal and external loops** that allow you to keep everything in order and within reach. The **closed pockets** on the front and back offer extra space for accessories or small tools that need to be protected from dust or impact. To ensure comfortable transport, the bag is equipped with both an **ergonomic handle** and a **padded and adjustable shoulder strap**, making it perfect for frequent travel to construction sites or the workplace.

With its robust and functional design, the **h905_27 bag** is ideal for electricians, plumbers, carpenters, and technicians who need a versatile and resistant solution to transport and protect their tools during the working day.

Don’t miss out on the **h905_27 tool bag**: the perfect solution for keeping your work tools organized and protected.

Buy it now to improve your productivity and always have your tools available, wherever you are. If you need a larger supply, request a personalized quote to get the best price!

Technical features:

- **Material:** high resistance technical fabric
- **Structure:** rigid for superior protection
- **Base:** rigid plastic to protect the contents
- **Compartments:** two large separate compartments for easy organization
- **Pockets:** multiple internal and external with loops
- **Closed pockets:** on the front and back to protect small objects
- **Handle:** ergonomic for easy transport
- **Shoulder strap:** padded and adjustable for greater comfort
- **Dimensions:** W 45 x D 25 x H 33 cm

User benefits:

- Excellent tool protection thanks to the rigid base
- Great organization with multiple compartments and pockets
- Durable materials that guarantee a long life
- Comfort during transport thanks to the padded shoulder strap
- Easy access to tools thanks to external pockets

FAQ:

1. **Is the rigid base removable?**
   No, the rigid base is integrated into the structure to ensure greater protection and stability.
2. **How many pockets does the bag have?**
   The bag has multiple internal and external pockets, as well as two closed pockets on the front and back.
3. **Can I transport heavy tools?**
   Yes, the rigid structure and padded shoulder strap guarantee resistance and comfort even with heavy loads.

Mini purchase guide:
When choosing a **tool bag**, first consider the **resistance of the materials**: opting for a technical fabric like that of the **h905_27 bag** means having a durable and reliable product. The **internal and external pockets** are essential for excellent organization, allowing you to quickly find the tools you need.

The presence of a **rigid base** protects your tools from impacts and falls, ensuring maximum safety. Finally, **comfort in transport** is essential: make sure the bag has a padded and adjustable shoulder strap, as in the case of this model, to avoid discomfort even during long journeys.
