

1-liter kettle for hotel h41433

Professional cordless 1 L kettle in polished stainless steel. High power (up to 2200W), 360° swivel base, automatic shut-off and level indicator. Ideal for hotel rooms and B&B.

The **professional 1-liter cordless kettle** is an essential accessory to elevate the comfort of hotel rooms, resorts, and bed & breakfasts. Characterized by an elegant design and a refined **polished stainless steel** finish, this device allows guests to prepare hot drinks in total autonomy and safety. The structure is designed for intensive use, combining a refined aesthetic with high performance thanks to a power that reaches **2200 W**, guaranteeing extremely fast boiling times.

Practicality of use is ensured by the **360° swivel base**, which allows for positioning from any angle, and the lid with safety opening via button. For optimal resource management, the kettle operates in energy-saving mode and is equipped with a transparent window for monitoring the water level. Safety is guaranteed by the **automatic shut-off** system and the "On-Off" indicator light, which clearly signals the operating status of the appliance, making it a reliable complement for every hospitality facility.
