# Loading platform with edges, capacity 1000 kg h1026_07

Aluminum platform with side edges and non-slip surface. Length: 199.1 cm. Beam height: 6.5 cm. Capacity: 1000 kg.

The **H1026_07 loading platform** is a professional solution designed to facilitate **safe loading and unloading activities** in contexts such as **logistics, transport, beverage distribution, removals, and events**. Made entirely of **aluminum with a non-slip surface**, it is ideal for use with **manual pallet trucks, hand trolleys**, and equipment with **small rubberized wheels**.

Thanks to its **sturdy yet lightweight structure** and **certified capacity of 1000 kg at a 1000 mm wheelbase**, this platform allows for efficient operations even with heavy loads. The presence of **29 mm side edges** ensures greater protection against the load slipping sideways, increasing the level of **safety for the operator**.

Equipped with an **anchoring system with an aluminum tongue**, designed to **slide along the width** of the platform and **rotate in the head**, it allows for stable installation on different surfaces. The **head end caps** prevent the tongue from accidentally coming out during use.

With a **length of 1991 mm** and an **external width of 1000 mm**, this platform offers a wide transit area, perfect for moving bulky loads smoothly and safely.

Buy the **H1026_07 platform** now! Safe, solid, and ready for use to optimize your daily logistics.

**Technical features:**

- **Type:** aluminum loading platform with edges
- **Material:** aluminum
- **Walking surface:** non-slip
- **Standard length (L):** 1991 mm
- **Internal width (A):** 940 mm
- **External width (B):** 1000 mm
- **Edge height (C):** 29 mm
- **Beam height (D):** 65 mm
- **Overall height with edges (E):** 83 mm
- **Capacity:** 1000 kg at 1000 mm wheelbase
- **Unit weight:** 30 kg
- **Anchoring system:** slidable and rotatable aluminum tongue
- **Equipment included:** head end caps

**User benefits:**

- **Edges:** side safety edges to contain the load.

- **Surface:** non-slip for safe handling.
- **System:** quick and stable anchoring.
- **Ideal:** for heavy loads up to 1000 kg.
- **Platform:** removable, lightweight, and easy to position.

**FAQ:**

1. **Is it compatible with pallet trucks and manual trolleys?**
   Yes, it is designed for use with equipment equipped with rubberized wheels such as pallet trucks and trolleys.
2. **Are the edges fixed or removable?**
   The edges are fixed and integrated into the structure, designed to increase safety.
3. **Is assembly required?**
   No, the platform is supplied ready for use, complete with tongue and caps.
4. **Is it available with edges?**
   Yes, this version is available with edges.
5. **How much capacity can it support?**
   The platform supports up to 1000 kg distributed at a 1000 mm wheelbase, suitable for intensive professional use.

**Mini buying guide:**

If you are looking for a professional platform for **loading/unloading from vans, trucks, or logistics bays**, the **H1026_07** is a highly reliable solution.

The **side edges** guarantee **greater safety**, especially during the most delicate handling phases.

The **non-slip surface**, combined with the **high capacity** and the **adjustable fastening system**, make it perfect for dynamic warehouses, shippers, and operators in the events or removals sector.

A **solid, safe, and simple-to-use platform**, ready to optimize your daily work.
