

Medical step stool for doctor's offices 1 step h564_69

Single step stool for doctor's offices, chrome-plated steel, non-slip plastic step, 150 kg capacity.

Specialized step stool for medical and outpatient environments, designed to facilitate patient access to examination tables, chairs, and diagnostic equipment during visits. Made with a **load-bearing structure in chrome-plated steel tubing**, it offers stability and long-lasting resistance. The **single step in plastic material** features a **non-slip** surface to ensure secure grip in any humidity condition. The **non-slip rubber feet** completely stabilize the stool on the floor, reducing risks of accidental movement during patient use.

Technical features

- Structure: chrome-plated steel tubing
- Step: non-slip plastic material
- Number of steps: 1
- Footrest step dimensions: 200 × 380 mm
- Overall dimensions: 280 × 390 × h. 220 mm
