

10-liter oxygen cylinder holder h44201

Stainless steel cylinder trolley for 10-liter O₂ cylinders. Twin wheels Ø50 mm, anchoring strap, EN 60601 compliant.

The oxygen cylinder trolley is an essential piece of equipment for clinics, hospitals, and nursing homes, designed to facilitate the safe and efficient transport of oxygen cylinders. It significantly reduces the physical load on medical and hospital staff during movements.

The cylinder holder is **specifically suitable for 10-liter O₂ cylinders** and ensures optimal transport thanks to a robust structure designed for stability.

Technical features

- Type: Cylinder trolley
- Material: **Coated stainless steel**
- Color: White RAL 9010
- Capacity: 10 liters of O₂
- Anchoring system: **Protective strap**
- Wheels: Twin, 50 mm diameter
- Height: 880 mm
- Base diameter: Approximately 635 mm
- Regulation: **EN 60601 compliant**
- Warranty: 2 years
