

10-place coat rack plastic hangers h908_196

10-place wall-mounted coat rack for kindergartens in melamine and plastic. Length 200 cm, ideal for organizing spaces with maximum safety.

The **h908_196 wall-mounted coat rack** represents a functional solution for managing order within school and recreational environments. Designed to meet the needs of **kindergartens**, this furnishing accessory allows for the systematic organization of students' clothing and accessories, optimizing available space and ensuring an environment that is always clean.

The structure consists of a high-resistance **melamine board**, which serves as a stable support for the **10 plastic hangers**. The choice of materials is oriented towards durability and safety: melamine ensures a surface resistant to scratches, while plastic hangers eliminate risks related to sharp edges or heavy components, making the product ideal for interaction with children.
