Tool backpack h905_24

Tool backpack with double compartment, heavy-duty technical fabric and integrated wheels. Dimensions: W 35 x D 20 x H 52 cm.

The **tool backpack with wheels h905_24** is designed for those looking for a versatile and resistant solution for transporting equipment and work tools. Made of **heavy-duty technical fabric**, it is perfect for facing intense work environments and frequent movements. Thanks to its **carry-on compatible dimensions**, it is ideal for technicians and professionals who travel frequently, ensuring maximum practicality and organization.

The design includes a **retractable telescopic handle** that easily extends to pull the backpack on flat surfaces. The **integrated wheels** with a closable cover protect against dirt and increase the product's durability, allowing for effortless transport. The interior is divided into **two main compartments**: one dedicated to tools and one for devices such as PCs, tablets, and documents. Furthermore, the backpack is equipped with **multiple pockets** both internal and external, allowing for optimal organization of small accessories, components, and cables.

Transport comfort is ensured by the **padded ergonomic backrest** and **padded shoulder straps**, ideal for long workdays. The shoulder straps can be stored in a dedicated pocket when you prefer to use the wheels, avoiding bulk and ensuring greater practicality. The adjustable chest strap offers additional support for a balanced weight distribution.

This backpack is the perfect accessory for technical support professionals, electricians, maintenance workers, and IT technicians who need to carry tools and devices with them, keeping everything tidy and easily accessible.

Don't let tool transport become an obstacle! Choose the **tool backpack with wheels h905_24** for a convenient, organized solution suited to your travels. Buy it now and take advantage of stress-free transport and maximum efficiency at work. **Order today** and discover how much it can improve your workday! Ideal for professionals always on the move.

Technical features:

- **Dimensions**: W 35 x D 20 x H 52 cm
- **Material**: high-resistance technical fabric
- **Internal compartments**: double compartment (tool holder and PC/document holder)
- **Wheels**: integrated with closable cover
- **Handle**: retractable telescopic
- **Pockets**: multiple, front, side, and internal
- **Backrest**: ergonomic, padded

- **Chest strap**: adjustable for greater stability

User benefits:

- **Easy transport**: thanks to integrated wheels and telescopic handle
- **Maximum organization**: double compartment for tools and documents/PC
- **Versatility**: perfect for technical professionals, support, or maintenance
- **Guaranteed comfort**: ergonomic backrest and padded shoulder straps

- **Safety and order**: multiple pockets for an intelligent distribution of tools

FAQ:

- **Is it possible to take the backpack into the cabin as carry-on luggage?**
  Yes, the dimensions of the backpack comply with the standards of most airlines.
- **Are the wheels resistant on rough terrain?**
  Yes, the wheels are designed to resist wear and tear and cover a wide range of surfaces, ensuring smooth mobility.
- **Is the backpack waterproof?**
  The technical fabric offers resistance to splashes and weather, but it is not completely waterproof.
- **Can the backpack hold a PC?**
  Yes, the dedicated compartment can contain PCs and documents.

Mini buying guide:
When choosing a **tool backpack** with wheels, be sure to evaluate some key aspects. First of all, check that the **fabric** is robust and resistant to last over time, especially if you work in difficult environments or exposed to atmospheric agents. The **integrated wheels** and **telescopic handle** are essential if you need to move frequently or cover long distances.

A design with a **double internal compartment** is ideal for those who need to transport tools and documents separately, while **multiple pockets** allow for better organization of smaller objects. Finally, **transport comfort** is fundamental: choose a backpack with padded shoulder straps, an ergonomic backrest, and an adjustable **chest strap** to avoid overloading shoulders and back.
