

100 lt containment platform with grid h104315

Containment platform and drip tray h104315 in 100% recyclable polyethylene (PE), UV-resistant and rustproof. Dimensions: W 120 x D 80 x 17.5 cm, maximum capacity 143 liters (100 liters with grid inserted).

The **containment platform with grid h104315** is a high-capacity drip tray in polyethylene (PE), specifically designed for compliant storage, safe handling, and transfer of small and medium quantities of hazardous liquids. Made of 100% recyclable, rustproof, and highly UV-resistant PE, this structure offers excellent chemical compatibility with the vast majority of corrosive substances, acids, and hydrocarbons. With planar dimensions of 1200x800 mm, the platform has been **designed to fit and be perfectly overlaid on a standard 80x120 cm Euro Pallet**. It guarantees a total geometric collection capacity of 143 liters (which configures to 100 useful liters when the grid is present). The removable upper grid features a non-slip surface finish, manual grip slots, and large viewing openings that allow both visual inspection of the bottom and the direct insertion of a transfer pump. The conical shape makes the structure stackable to optimize logistical space in the warehouse.

Technical specifications

- **Material:** High-density 100% recyclable polyethylene (PE)
- **Properties:** UV-resistant, rustproof and immune to chemical corrosion
- **External dimensions:** 1200 x 800 x 175 (WxDxH) mm
- **Maximum collection capacity (Without grid):** 143 liters
- **Useful collection capacity (With grid):** 100 liters
- **Maximum structural load capacity (With grid):** 210 kg
- **Net weight:** 7.5 kg
- **Logistical modularity:** Dimensioned to cover exactly the surface of an 80 x 120 cm Euro Pallet
- **Grid configuration:** Removable, with non-slip texture, manual inserts and gaps for inspections and/or pumps
- **Storage:** Stackable profile to facilitate transport and storage of empty tanks
- **Cleaning:** Smooth and easy-to-sanitize surfaces, also suitable for the food sector
