# Tool case h931_13

Tool case with 2 TSA approved locks with key. Dimensions: W. 45.3 x D. 18.5 x H. 34.5 cm.

The **tool trolley** is particularly suitable for professional use and air travel. The double wall in high-density **shockproof polyethylene** guarantees **exceptional robustness**, protecting the contents from impacts and falls. The resistance to **high and low** temperatures allows the trolley to be used even in extreme conditions, without compromising the integrity of the tools inside. The **TSA locks** are an additional advantage, as they allow airport personnel to inspect the luggage without damaging **the locks**. This is essential for those who travel frequently and want to avoid inconveniences during air transport. In summary, this trolley combines **functionality, safety, and resistance**, representing an ideal choice for professionals needing a reliable transport system for their tools.
