Tool trolley case h931_10

Tool case with telescopic handle and ball-bearing wheels. Dimensions: W. 47 x D. 32 x H. 39 cm.

The **polyethylene tool trolley case** is designed to provide optimal protection against impacts, making it ideal for professional use. The high-thickness **aluminium** sealing profile guarantees a **secure** and **resistant closure**, while the **reinforced corner** design allows it to handle even the most demanding transport, such as air travel. With its large capacity, this container is perfect for **transporting hand tools**, **spare parts**, and **power tools.** The robustness of the materials and the attention to detail make it an excellent choice for those who need a reliable and durable solution for transporting professional tools. Whether for a technician, a craftsman, or a professional on the move, this trolley case meets the needs of those seeking efficiency and safety in the transport of their work tools.

Technical features:

- Dimensions: W. 47 x D. 32 x H. 39 cm
- Material: polyethylene
