

106-piece soft brick set for nursery schools h821_05

Kit of 106 soft bricks in lightweight and washable material. Assorted shapes and colors for educational activities and collaborative play in safety.

The **soft bricks** kit represents a versatile educational solution designed for educational contexts and collective play areas. The structure of the elements allows children to explore spatiality and **creativity** in total safety, favoring motor coordination and collaboration during group activities. Thanks to the nature of the material, the modules are easily manipulated even by the youngest children, solving the need for large-scale play tools without impact risks.

Technical features

- **Material:** Soft, lightweight, and high-resistance polymer
- **Hygiene:** Fully washable surface for frequent sanitization cycles
- **Composition:** Complete 106-piece kit
- **Design:** Assortment of different geometric shapes and bright colors
- **Safety:** Flexible structure designed to prevent trauma during play
