Tool trolley h931_09

Tool trolley with two ergonomic rubber-coated handles and 2 approved TSA locks. Dimensions: W. 39 x D. 34 x H. 47 cm.

The **vertical transport tool trolley case** represents an ideal solution for professionals requiring a robust and functional transport system. Made of **polyethylene**, this container combines **lightness** and **resistance**, while the high-thickness **aluminum** sealing profile guarantees a **secure closure** and **effective protection** from external agents. Thanks to its large capacity and reinforced corners, this case is perfect for transporting **tools, power tools and spare parts**, making it ideal also for air transport contexts. The vertical design facilitates maneuverability and quick access to content, while the **wheels** and **telescopic handle** simplify transport in various situations.

Technical characteristics:

- Dimensions: W. 39 x D. 34 x H. 47 cm
- Material: polyethylene
- 2 tool-holding panels with PSS™ system on one side
- 1 central tool-holding panel with PSS™ system on two sides
- 2 ergonomic rubber-coated handles
- Telescopic handle
- Ø 120 mm diameter wheels with ball bearings and waterproof shielding
- Gas lid support struts
- Document holder pocket
- 2 approved TSA locks
