Toolbox h905_25

Toolbox with 104 high-quality tools, equipped with 5 separate compartments. Dimensions: approx. W. 43 x D. 16 x H. 20 cm.

The **toolbox h905_25** is an indispensable product for those working in professional environments such as workshops, construction sites or laboratories, offering a practical and complete organizational solution. The robust construction in **materials resistant to wear and abrasion** guarantees a long life, even in intensive work environments subject to dust or impacts. Thanks to the **5 separate compartments**, you can keep your tools perfectly organized, avoiding confusion and speeding up the work. Each compartment is designed to accommodate a range of specific tools, such as slotted and Phillips screwdrivers, pliers, socket wrenches and combination wrenches, included in the set of 104 tools provided.

The practicality of this box is also provided by the **ergonomic handle**, which allows for easy and safe transport, minimizing effort even when the box is full. The **secure and reliable** locking system protects the tools not only during transport, but also from external agents, such as dust and dirt, making the **h905_25** perfect for those who work in dusty or exposed environments. This box is designed to last over time, ensuring excellent protection for your tools and ensuring that you always have the right tool at hand for every need.

With its **assortment of professional tools**, which includes high-quality wrenches and screwdrivers, it is ideal for professionals such as mechanics, electricians, carpenters, but also for those who love DIY and want a complete and well-organized set. The versatility of the h905_25 toolbox makes it suitable for any work environment, from construction sites to home maintenance.

Don’t miss the opportunity to improve your productivity with the **toolbox h905_25**. Thanks to its 104 high-quality tools and the practical organization of the 5 compartments, you can work efficiently and always have the right tool at hand.

Purchase it today and transform your way of working with a robust and reliable solution. If you need a larger quantity, request a personalized quote to get the best price.

- Complete set of tools for every professional need
- High resistance and durability over time
- Easy transport thanks to the ergonomic handle
- Perfect organization with 5 separate compartments
- Protection from external agents thanks to the secure closure

FAQ:

1. **Which tools are included?**
   The set includes 104 tools, including screwdrivers, pliers, socket wrenches and combination wrenches.

2. **Is the box weather-resistant?**
   Yes, the secure closure protects tools from dust and dirt, making it suitable even for exposed environments.
3. **Is the box easy to transport?**
   Yes, the box is equipped with a practical carrying handle.

Mini buying guide:
When choosing a **toolbox**, it is important to consider some key features to make a targeted and useful purchase. First of all, evaluate the number of **compartments**: the more compartments there are, the more easily you can organize your tools, avoiding confusion and saving time during work. The **size of the box** is equally important: make sure it is large enough to hold all the tools you regularly use, but also compact enough to be easily transportable. The **ergonomic handle** is another fundamental element, because it must allow for easy transport even in the event of high weight.

The quality of the **material** is another crucial factor: a box made of **steel or resistant plastic** will last longer and will be able to better protect tools from impacts and wear. Finally, a **secure locking system** is essential to prevent tools from being exposed to dust and dirt, especially in demanding work environments such as workshops or construction sites. The **h905_25** toolbox offers all these features, making it the ideal choice for those looking for a reliable and versatile product, suitable for multiple professional or DIY needs.
