Work tool bag h905_26

Tool bag made of resistant technical fabric, with padded shoulder strap and multiple pockets. Dimensions: W 46 x D 29 x H 32 cm.

The **h905_26 tool bag** is the perfect choice for professionals such as electricians, plumbers, mechanics, and technicians who need a practical and durable solution for carrying their tools. Made of **high-resistance technical fabric**, this bag is designed to last and withstand wear and tear even in demanding work environments. The **semi-rigid base with plastic feet** provides additional stability and protects the contents from impacts and uneven surfaces, ensuring optimal protection for your tools.

The large central compartment is perfect for holding larger tools, while the **multiple internal and external pockets** allow you to organize your equipment efficiently, always keeping everything within reach. On the back, there is a **closed pocket** for more delicate or personal items, while on the front you will find a **double closed pocket with loops**, ideal for storing frequently used tools or accessories. The bag is also equipped with a **padded and adjustable shoulder strap**, designed to offer you maximum comfort even during prolonged transport.

With a functional and resistant design, the **h905_26 bag** is perfect for those seeking a professional and versatile accessory to organize and transport their tools, keeping them protected and easily accessible in any situation.

Choose the **h905_26 tool bag** to organize and transport your tools in a practical and safe way. Thanks to its resistance and numerous pockets, it is ideal for professionals who need a reliable solution. Buy now and always carry everything you need to work at your best.

Take advantage of fast shipping and, if you need larger quantities, contact us for a personalized quote.

Technical features:

- **Material:** high-resistance technical fabric
- **Base:** semi-rigid with plastic feet for greater stability
- **Central compartment:** large, suitable for large tools
- **Pockets:** multiple, internal and external, for better organization
- **Front pockets:** double closed pockets with loops
- **Rear pocket:** closed for personal or delicate items
- **Shoulder strap:** padded and adjustable for comfortable transport
- **Dimensions:** W 46 x D 29 x H 32 cm

User benefits:

- High resistance thanks to reinforced technical fabric
- Optimal organization with multiple internal and external pockets
- Reinforced base for superior tool protection
- Padded shoulder strap for comfortable transport even with heavy loads
- Quick and easy access to tools with front and side pockets

FAQ:

1. **Is the base of the bag rigid?**
   The base is semi-rigid, with plastic feet for greater stability and protection against impacts and uneven surfaces.
2. **Is the shoulder strap adjustable?**
   Yes, the shoulder strap is padded and adjustable for optimal comfort during transport.

3. **How many pockets does the bag have?**
   The bag is equipped with multiple pockets, both internal and external, including a closed rear pocket and double front pockets with loops.

Mini buying guide:
When choosing a **tool bag**, it is important to evaluate the **material resistance**: technical fabric is ideal for those looking for a durable and resistant solution. Good **internal organization** allows you to keep all tools at hand, and having many **external pockets** is essential for quick access to the tools you use most often.

Furthermore, **transport comfort** is essential: make sure the bag has a padded and adjustable shoulder strap, like the **h905_26**, to ensure comfort even during long commutes. Finally, a **rigid or semi-rigid base** ensures stability and protects tools from impacts, extending the life of your equipment.
