

1500 l self-tipping skip h1004_06

1500-liter self-tipping skip in 2.5 mm sheet metal, dim. 1860x1600x1245 mm. Watertight seal and polyurethane wheels for heavy loads up to 2500 kg.

The **h1004_06 1500-liter self-tipping skip** represents a professional solution for optimizing the **handling, storage, and discharge** processes of solid, bulk materials, or industrial waste. Specifically designed for integration with **forklifts**, this hopper solves the critical issues related to managing high volumes, ensuring fast and safe emptying operations in warehouses, construction sites, and production plants.

The structure is entirely made of **2.5 mm thick steel sheet**, a construction choice that ensures superior mechanical resistance for loads up to **2,500 kg**. A distinctive feature is the **watertight seal** of the tank, an essential characteristic to prevent the dispersion of fine dust or the leakage of liquid residues and damp materials during transport.

Technical features

- **Volumetric capacity:** 1,500 liters
- **Material:** 2.5 mm thick steel sheet
- **External dimensions:** L. 1860 x W. 1600 x h. 1245 mm
- **Internal skip dimensions:** L. 1750 x W. 1500 x h. 890 mm
- **Maximum capacity (load):** 2,500 kg
- **Empty weight:** 214 kg
- **Handling system:** 2 fixed wheels + 2 swivelling polyurethane wheels (Ø 150 mm)
- **Discharge mechanism:** Automatic frontal self-tipping system
- **Finish:** Blue RAL 5010 painting
- **Certification:** Provided with CE Mark
- **Options:** Available custom-made for specific operational needs
