

16-place preschool coat rack h908_46

A-frame coat rack for preschool, 16 places, metal and melamine structure, 134x50x150 cm, with bottom shelf and swivel wheels.

The **h908_46 A-frame coat rack** is a professional furnishing solution designed for the organization of clothing and personal belongings in educational contexts. Thanks to the double-sided configuration, the system allows for the orderly management of the needs of 16 small users, optimizing the floor space in hallways or entrance areas. The A-frame structure guarantees **high mechanical stability**, essential for safety in school environments.

The module is equipped with a scratch-resistant **melamine bottom shelf**, ideal for storing shoes and backpacks, keeping the floor free of obstacles and facilitating sanitation operations. The base on wheels provides extreme flexibility, allowing for the reconfiguration of spaces or moving the entire structure effortlessly during daily cleaning.
