

2-bike parking rack h915_20

Parking rack for 2 bikes. With keypad locking system. Dimensions: W. 286 x D. 200 x H. 800 mm. In painted steel.

The **space-saving bicycle rack** with a modern design is **designed to accommodate two bicycles** in a parallel manner in public and communal areas. Made of **steel** and treated with two layers of paint (epoxy and polyester), it offers great durability and resistance. To park the bicycle, simply insert the pedal into the specific opening and lock it with a padlock (not provided) which prevents movement of the rear wheel and the frame. This bicycle rack ensures both safety and optimal space management, and is **compatible with any type of bicycle**. Its installation is facilitated by the base **to be anchored to the ground**. The locking system is locked and unlocked with a code that can be defined on the **keypad**.
