

2-bike rack steel panels h915_12

Bike rack for public spaces. 2 spaces. 2 compartments. With key lock. Dimensions: L. 400 x D. 460 x H. 906 mm.

Bike rack for parking two bicycles along public streets and common spaces. It ensures maximum stability of the bike thanks to the insertion of the pedal into the groove on the structure. The rack is equipped with **two compartments** where accessories such as a helmet and seat can be stored. **Key-operated**. The user must provide their own lock to secure the wheels and frame. It is particularly suitable for city installation and compatible with all bicycle models. Made of **steel, painted with epoxy primer and polyester paint for outdoor use. It must be anchored to the ground.**

Technical features:

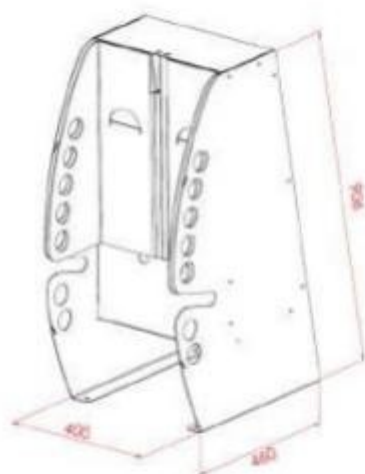

- Dimensions: L. 400 x D. 460 x H. 906 mm
- Number of spaces: 2
- Material: steel painted in 2 layers (epoxy primer and polyester paint for outdoor use)
- Color: as per photo
- 2 compartments
- Key-operated
- The user must provide a lock to secure the wheels and frame of their bike
- Installation: to be anchored to the floor
- Requires no special maintenance
