

## 2-compartment recycling container h20\_208

Double-compartment container for waste sorting. Indoor use. Capacity: 2 x 30 lt.

**Waste bin for recycling**, specifically for indoor use. Ideal for placement in shopping centers, universities, schools, airports and stations. Consisting of a **fingerprint-proof sheet metal structure** with an ABS base and a polypropylene and stainless steel lid. It consists of **2 compartments**, each equipped with an internal bucket to ensure easy cleaning. The lid is opened via a **plastic pedal with steel coating**, while the **closure is soft-close and silent**. **Two handles** on the sides of the container make moving it easier and more practical.

### Technical features:

- Dimensions: W.49.5 x D.45.9 x h.63.6 cm
- Weight: 8.35 kg
- Capacity: 2 x 30 lt
- Sheet metal structure
- Polypropylene and stainless steel lid
- Plastic pedal with steel coating
- ABS base
- Finish: satin
- Pedal lid opening
- Soft-close and silent lid closure
- Side handles
