

## 2-door medicine display cabinet h527\_09

Medicine cabinet in melamine-faced wood with 2 tempered glass doors, 4 adjustable shelves, lock, steel feet. Suitable for clinics and doctor's offices.

The medicine display cabinet is a professional piece of furniture designed for the organized storage and display of drugs in healthcare environments. Structured with melamine-faced particle board panels, it offers a robust and hygienic solution for medical offices and clinics, ensuring visibility of contents and protection through a lock.

The 5 mm tempered glass door system with aluminum edges ensures transparency and durability, while the **4 adjustable internal tempered glass shelves** allow for space adaptation to different storage needs. The base with **powder-coated steel feet and adjustable levelers** guarantees stability and compensation for any floor irregularities.
