

## 2-panel medical privacy screen h559\_03

2-panel folding screen in 30x15 mm oval tube, height 180 cm, with cotton curtains and adjustable feet. Class 1 medical device for healthcare environments.

2-panel screen specifically designed for healthcare environments such as **medical practices, operating rooms, clinics, and hospitals**. It allows for the visual isolation of operating and ward areas, ensuring privacy and functional separation of spaces in contexts with high hygiene and regulatory requirements.

The **structure is made of 30 x 15 mm oval tube** powder-coated in **grey epoxy**, a material resistant to chemical disinfectants commonly used in hospital settings. The **panels are folding** to facilitate transport and storage, complemented by **cotton curtains** that ensure uniform coverage. The **base is equipped with 4 adjustable feet** that adapt the screen to uneven floors and guarantee structural stability.

## Technical features

- Dimensions: width 60+60 cm, height 180 cm
- Structural material: 30 x 15 mm oval tube
- Configuration: 2 folding panels
- Panel covering: cotton curtains
- Base: 4 adjustable feet
- Finish: grey epoxy powder coating
- Weight: 14 kg
- Regulatory compliance: Class 1 medical device, compliant with directive 93/42/EEC
