

2-place bike rack in galvanized steel h109210

Two-seater bike rack available with fixing to be buried or to be bolted down. Steel structure. Dimensions: mm 974x494x979h. 100% Italian product.

The two-seater bike rack for street furniture thanks to its compact structure can be easily installed in any urban environment. With an innovative and highly functional design, this rack is characterized by two wheel-holder discs and a support tube for fixing the frame.

To ensure greater resistance to atmospheric agents, the solid structure is made of galvanized and painted steel. In particular, this model is available in the following colors: gray green and black.

This bike rack can be fixed individually or in a series.

Based on your needs and the installation site, you can choose from the following types of fixing:

- to be bolted down
- to be buried
