

2-seater painted steel bike rack h915_05

2-seater bike rack, with 2 integrated cables. Without lock. Dimensions: W. 1400 x h. 1100 mm.

This innovative **2-seater bicycle rack** is designed to ensure maximum safety and practicality in public and community spaces. With a **classic and versatile design**, it is perfect for collective environments. Once the bicycles are inserted into the support, the wheels and the frame are locked via two **integrated cables**. The integrated cables eliminate the need for an external chain, simplifying the parking and locking process. **It requires no special maintenance**, making it ideal for continuous and trouble-free use. **Suitable for all bicycle models**, the support easily adapts to different types of bikes. Made of sturdy **steel**, the bike rack features a finish with a corrosion-resistant epoxy paint (equivalent to hot-dip galvanizing) and a high-quality polyester paint, designed to withstand atmospheric agents. Installation is carried out via **ground anchoring**. The bike rack is perfect for combining functionality and safety in every public and shared environment.
