

2-seater spring rider for playground h521_49

Two-seater spring rider for children aged 3 to 12. Dimensions: L. 114 x D. 30 x h. 94 cm. Seat height: 56 cm. Safety area: 3.19 x 2.30 m.

The **h521_49 spring rider** is a **two-seater structure** designed for children who want to rock together, fostering interaction and the development of balance and motor coordination. The **main structure is made of laminated wood with powder-coated iron plates**, ensuring resistance and durability over time, even in outdoor environments.

The **decorative figures and seats** are made of **15 mm HDPE polyethylene**, a safe, scratch-resistant, and weather-resistant material. All metal elements are treated against corrosion and the **screws are protected by colored plastic caps**, for the maximum safety of the little users. The **platform is non-slip**, made of phenolic panel, for safe play even in the presence of humidity.

Certified according to the **UNE EN1176 standard**, this game is designed for use in public playgrounds and is **suitable for children aged 3 to 12**.

Choose the h521_49 spring rider to offer the little ones a safe, stimulating, and shared play activity in public playgrounds.
