

## 2-seater waiting room bench h1038\_03

2-seater waiting room bench in perforated sheet metal with steel beam and aluminum armrests. Robust and reliable structure ideal for airports, hospitals and public spaces.

The **h1038\_03 waiting room bench** is a 2-seater seating system designed to withstand intensive use in high-traffic public environments. Characterized by a technical and linear design, this bench solves the furnishing needs for large spaces thanks to its **steel tube structure** and **perforated sheet metal** seats. The particular perforated design not only provides a modern aesthetic, but also promotes breathability and ease of cleaning. The integrated aluminum armrests add comfort and clearly delimit the space for each user, ensuring order and functionality in every professional context.

## Technical features
