

2-seater waiting room bench h776_90

2-seater steel and polypropylene bench for waiting rooms. CAM compliant, compact and robust, ideal for clinics and public offices. W 108 cm.

The **2-seater bench h776_90** represents an advanced technical solution for furnishing high-traffic areas such as **medical practices, public offices, and school environments**. Designed to maximize durability without sacrificing comfort, the structure is manufactured in compliance with the **Minimum Environmental Criteria (CAM)**, meeting the needs of sustainable professional and public supplies.

The heart of the bench consists of a **supporting steel beam with an 80x40 mm rectangular section**, treated with black epoxy powder coating for long-lasting protection against wear. Stability is guaranteed by **inverted "T" legs** equipped with adjustable, non-slip feet, allowing for precise leveling even on uneven surfaces.

Technical characteristics

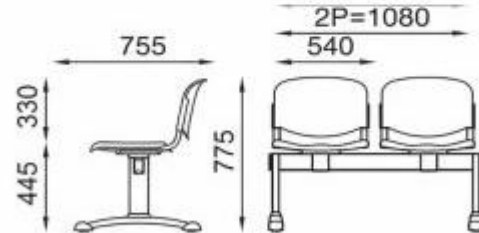

- **Capacity:** 2 seats
- **Supporting structure:** 80x40 mm rectangular steel beam with epoxy powder coating
- **Base:** inverted "T" steel legs with plastic end caps
- **Adjustment:** adjustable non-slip feet for leveling
- **Seat frame:** 30x10 mm elliptical steel tubing with under-seat reinforcement crossbars
- **Fastening system:** bolted metal plates and "U" bolts
- **Seat and backrest material:** anatomical polypropylene with non-slip textured surface
- **Finishes:** black structure, seats available in various color options
- **Dimensions:** W 108 x D 75.5 x H 77.5 cm
- **Total weight:** 20 kg
- **Assembly:** supplied in a kit to be assembled with instructions included
- **Regulatory compliance:** Minimum Environmental Criteria (CAM)
