

2-shelf clearing service trolley h09_262

Clearing trolley in AISI 304 stainless steel with 2 deep 150 mm basin shelves and multidirectional wheels. Ideal for containing liquids and solids.

The **h09_262** service trolley is a professional solution designed specifically for clearing and handling operations in sterile or high-intensity environments. Entirely made of **AISI 304 stainless steel**, it guarantees the highest standards of hygiene and corrosion resistance. The 20x20 mm tubular support structure ensures stability even under full load, while the **two basin shelves** with a height of 150 mm allow for transporting dishes and containers, preventing accidental spillage of liquids or objects slipping during transit.

Technical characteristics

- **Material:** AISI 304 stainless steel (structure and shelves)
- **Frame:** 20x20 mm square section tubular
- **Configuration:** 2 basin shelves with containment edge h 150 mm
- **Useful shelf dimensions:** 900 x 500 mm
- **Handling system:** 4 multidirectional wheels with 125 mm diameter
- **Overall dimensions:** 101 x 57 x 97(h) cm
