

2-shelf service trolley h418_137

Professional serving trolley with 2 plastic shelves and aluminum structure (80x50x97 cm). 120kg capacity, ideal for silent service.

The **h418_137** serving trolley is designed to optimize service, clearing, and mise en place operations within professional catering and hotel contexts. The combination of the **aluminum frame** and technical plastic shelves guarantees a lightweight yet extremely robust structure, capable of supporting heavy loads without compromising maneuverability. It is the ideal solution to facilitate transit between kitchen and dining room, reducing staff fatigue and ensuring smooth transport of tableware.

Technical specifications

- Overall dimensions: **W.80 x D.50 x h.97 cm**
- Configuration: 2 horizontal plastic shelves
- Structure material: high-resistance aluminum
- Maximum load capacity: **120 kg**
- Mobility system: 4 silent swivel wheels
- Ergonomics: double push handles integrated into the structure
- Compliance: produced according to CE standards and European food standards
- Hygiene: detergent-resistant materials and safety standard compliant
