

20-meter racing lane for competition pools h1009_11

Floating lane 20 meters h1009_11 for FINA pool with asymmetric Ø150 mm discs in PP and plastic-coated stainless steel rope. For competitions.

The **20-meter racing lane for competition pools h1009_11** is a technical floating divider for 20-meter pools, specifically developed for competitive swimming thanks to the use of large diameter discs and produced in compliance with FINA regulations. This device solves the operational criticality of managing the wave motion and the impact wave produced by high-speed swimmers, reducing turbulence in the water to guarantee regular and homogeneous race conditions. Aimed at managers of aquatic centers, sports facility managers, and organizing committees of competitive events, the lane features asymmetrically designed discs with a diameter of 150 mm (12 discs per meter) molded in first-quality polypropylene (PP) with the addition of additives to offer high resistance to chemical and atmospheric agents. The structure of the 20 m line is assembled on a plastic-coated stainless steel rope with a diameter of 6 mm and is integrated by high-density polyethylene PE-HD floating balls (6 per meter). The item is supplied in the standard colors blue, red, and white, with the possibility of requesting other color combinations upon quotation.

Technical features

- **Type and compliance:** Floating lane suitable for competitions, produced in compliance with FINA regulations
- **Lane length:** 20 m
- **Disc design and dimensions:** Asymmetrically designed discs, diameter Ø 150 mm (12 discs per meter)
- **Disc material:** Molded first-quality polypropylene (PP), with additives for high resistance to chemical and atmospheric agents
- **Disc function:** Ideal for reducing waves produced by athletes
- **Assembly support:** Plastic-coated stainless steel rope, Ø 6 mm
- **Floats:** PE-HD floating balls (6 per meter)
- **Standard colors:** Blue, red, white
- **Color variations:** Other colors available upon request and quotation
- **Stainless steel springs and tensioners** (upon request and quotation)
