

200cm road barrier h287_136

Steel barrier for urban furniture. Dimensions: L200 x H110 cm

Barrier for urban furniture ideal for delimiting public or private spaces during events, fairs or roadworks. Constructed **from 35 mm diameter round steel tube** with **10 mm diameter solid round iron** vertical bars placed 12 cm apart from each other. The finish includes **hot-dip galvanization** via a high-purity molten zinc bath. The barrier is also equipped at the ends with **2 hooks and 2 clamps** to allow rapid coupling to other barriers.

Technical features:

- Dimensions: L200 x H110 cm
- Material: galvanized steel and iron
- With 2 hooks and 2 clamps
- Without reflector
- Hot-dip galvanization according to UNI EN ISO 1461 and UNI EN 1179 standards

**The barrier h287_136 is also available on the MEPA portal. Discover how to find our company on the [Public Administration portal](#).*
