

25 m floating lane suitable for pools h1009_07

25-meter floating lane h1009_07 for FINA swimming pools with asymmetric Ø150 mm PP discs and plastic-coated stainless steel rope. For competitions.

The **Floating lane suitable for pools h1009_07** is a technical dividing element for swimming facilities, specifically designed for competitive racing thanks to the use of large diameter discs and produced in compliance with FINA regulations. This device solves the operational criticality of managing the impact wave and the wave motion generated by high-speed swimming, reducing turbulence in the tank to ensure regulated and uniform racing conditions. Intended for aquatic center managers, sports facility managers, and competitive event organizing committees, the lane features asymmetric design discs with a diameter of 150 mm (12 discs per meter) molded in first-quality polypropylene (PP) with the addition of additives to offer high resistance to chemical and atmospheric agents. The structure is assembled on a plastic-coated stainless steel rope with a diameter of 6 mm and is integrated with high-density polyethylene PE-HD floating balls (6 per meter). The item is supplied in standard colors blue, red, and white, with the possibility of requesting other color combinations upon quotation.

Technical features

- **Type and compliance:** Floating lane suitable for competitions, produced in compliance with FINA regulations
- **Disc design and dimensions:** Asymmetric design discs, diameter Ø 150 mm (12 discs per meter)
- **Disc material:** Molded first-quality polypropylene (PP), with the addition of additives for high resistance to chemical and atmospheric agents
- **Disc function:** Ideal for reducing waves produced by athletes
- **Lane length:** 25 m
- **Assembly support:** Plastic-coated stainless steel rope, Ø 6 mm
- **Floats:** PE-HD floating balls (6 per meter)
- **Standard colors:** Blue, red, white
- **Color variants:** Other colors available upon request and subject to quotation
- **Stainless steel springs and tensioners:** (upon request and subject to quotation)
