

27L wooden waste collection bin h287_242

Pine wood waste bin for urban furniture. Capacity: approx. 27 liters. Dimensions: W.32 x D.43 x H.48 cm.

The **wooden waste bin for public spaces** is the ideal product to ensure the cleanliness of parks and trails, while adapting to the characteristics of the surrounding environment thanks to its **pine wood structure**. The product consists of a **10/10 thick galvanized steel sheet bin** covered with **autoclave-impregnated pine slats** using **non-toxic salts to be protected from fungi, bacteria** and also be resistant to atmospheric agents.

The wooden bin features **pole mounting using galvanized steel clamps**, while the emptying system is via release with an Allen key.

Technical features:

- Material: galvanized steel and pine wood
- Emptying via release with Allen key
- Anchoring: prepared for fixing to Ø6 cm pole
- Capacity: approx. 27 L
- Finish: hot-dip galvanized support according to UNI EN ISO 1461 standards
- Dimensions: W.32 x D.43 x H.48 cm
