

27L Wooden waste collection bin h287_244

Nordic pine wood waste bin for trails. Capacity: approx. 27L. Dimensions: W.32 x D.39 x H.120 cm.

The wooden waste collection bin is the ideal product for furnishing public places and nature trails in order to **ensure cleanliness and prevent non-biodegradable materials from being dispersed in the environment**. The product consists of a **double basket** made of 10/10 thick **galvanized steel** sheet clad with **Nordic pine slats** pressure-treated in an autoclave with non-toxic salts to repel bacteria and fungi. The support post is made of **Nordic pine** with a 70x70 mm section.

Technical features:

- Material: galvanized steel and Nordic pine wood
- Basket dimensions: Ø 280 x h.460 mm
- Support post 70 x 70 mm
- Anchoring: to be buried
- Dimensions: W.32 x D.39 x H.120 cm
- Capacity: approx. 27L
