

3-bike rack h463_08

3-bike bicycle rack in painted steel. Robust structure with plate fixing. Dimensions: W 164.5 x D 38 x H 53 cm.

The **H463_08 bike rack** is a compact, resistant solution with a modern design, ideal for the orderly parking of bicycles in public or private spaces. Made of **anti-corrosion treated and anti-UV powder-coated steel**, it ensures high durability over time even in adverse weather conditions.

Designed to **accommodate 3 bicycles**, the distance of **54 mm between the loops** makes this model compatible with all main wheel sizes, guaranteeing a stable and secure grip. Thanks to the possibility of **single access**, it easily adapts to the available space, optimizing organization in **high-traffic areas**, such as schools, companies, parking lots, apartment buildings, and parks.

The **plate fixing with 6 anchoring points** (kit not included) allows for a solid and secure installation on any flat surface. The rack is available in different colors.

Bring order, security, and style to your outdoor spaces. Order the **H463_08 rack** now or request a personalized quote for multiple supplies.
