

## 3-drawer office pedestal h1033\_15

Metal pedestal on wheels with 3 drawers and lock. Dimensions: W 42 x D 58 x H 57 cm.

The **H1033\_15 3-drawer office pedestal** is a practical and professional solution for organizing documents, stationery, and operational materials directly under or next to the desk. Designed for modern work environments, it combines **essential design, structural strength, and security**, easily integrating into different furniture configurations thanks to the available finishes.

The structure and drawers are made of **top-quality 8/10 mm DC01 – UNI EN 10130 sheet steel**, a material that guarantees wear resistance and long-lasting solidity. The surface is treated with **electrostatic epoxy-polyester resin powder coating**, after a **phospho-degreasing** treatment, to ensure protection and uniformity of the finish.

The **3 steel drawers** glide on **pressed steel guides with nylon roller bearings**, ensuring fluidity and practicality in daily opening. Opening is achieved via a **side groove**, a functional solution that maintains a clean and modern line without protruding handles.

For security, the pedestal is equipped with a **cylinder lock with a double folding anti-injury safety key**, ideal for storing confidential documents. Furthermore, the unit is provided with an **anti-tilt device**, which allows the opening of only one drawer at a time, increasing stability during use.

The **on wheels** version allows for easy movement within the office, making it particularly suitable for dynamic workstations.

Organize your workstation at its best with the safe and resistant **H1033\_15 professional pedestal**. Contact us for more information or for a quote on multiple supplies.

### Technical features:

- **Dimensions:** W. 42 x D. 58 x H. 57 cm
- **Structure:** 8/10 mm DC01 – UNI EN 10130 sheet steel
- **Finish:** Epoxy-polyester powder coating with phospho-degreasing
- **Drawers:** No. 3 steel drawers
- **Guides:** Pressed steel with nylon roller bearings
- **Opening:** Side groove
- **Lock:** Cylinder with double folding anti-injury safety key
- **Safety system:** Anti-tilt device (opening of only one drawer at a time)

### FAQ:

1. **Is the pedestal equipped with a lock?**  
Yes, it features a cylinder lock with a double folding anti-injury safety key.
2. **Are the drawers safe against tipping?**  
Yes, there is an anti-tilt device that allows only one drawer to be opened at a time.
3. **What material is it made of?**  
It is built from 8/10 mm DC01 – UNI EN 10130 sheet steel, powder coated.

**4. Is it easy to move?**

Yes, the version is on wheels, designed to facilitate movement under the desk or between different workstations.

**5. What type of opening do the drawers have?**

Opening is via a side groove, without external handles.

**Mini buying guide:**

When choosing an office pedestal, it is important to evaluate the quality of the structure, especially in professional contexts where use is frequent. An **8/10 DC01** sheet metal structure ensures long-term solidity. Guides with **roller bearings** affect the fluidity and durability of the drawers, while the presence of a lock is fundamental for the protection of documents. The **anti-tilt** system represents an important safety element. Finally, the version on wheels offers greater flexibility in dynamic work environments.
