

Electric 3-joint hospital bed h937_31

3-joint electric bed, adjustable height, wooden slats. Load capacity: 150 kg. Base: 90x200 cm.

The **3-joint and 4-section electric bed** is designed for professional use in hospital, clinic, or care settings. Ideal for patients with specific comfort and assistance needs, the bed offers an **adjustable height** from approximately 43 to 86 cm, full electric movement, and a Trendelenburg/Anti-Trendelenburg system adjustable via the same control panel.

The **solid steel profile structure** ensures robustness, while the wooden slats offer maximum comfort. The casing is made of a single-piece natural beech finish wood with top and side edges in solid wood, complete with built-in sliding guides for inserting side rails. The rails are vertical-sliding on two uprights, fixed to the headboards by means of sliding devices. Lowering and removing the rails occurs via upper and lower lock/unlock buttons. The 4 swivel wheels with independent brakes ensure practicality in movement.

Technical features:

- **Bed base dimensions:** 90 x 200 cm.
- **Electric movement:** leg and headrest sections adjustable via 24V DC motors and control panel
- **Adjustable height:** two independent electric motors built internally into the bed headboard panels
- **Frame material:** External perimeter load-bearing structure built in rectangular section steel profiles.
- **Available movements:** Trendelenburg (12°), Anti-Trendelenburg (-12°).
- **Slats:** In wood with integrated mattress holder guides.
- **Side rails:** Vertical sliding with upper and lower lock/unlock system.
- **Maximum load capacity:** 150 kg.
- **Supply voltage:** 230 V, 50Hz
- **Nominal actuator voltage:** 24 V
- **Wheels:** Swivel Ø125 mm with independent brake.
- **Standard equipment:** Patient lift pole with triangle and adjustable nylon strap.
- **Total external length:** 215 cm
- **Total external width:** 102 cm
- **Internal base length:** 190 cm
- **Internal base width:** 88 cm
- **Base height from ground:** 40.5 - 81 cm
- **Headboard height:** 50 cm
- **Wheel diameter:** 12.5 cm
- **Total weight:** 112 kg

User benefits:

- Personalized comfort thanks to independent electric movements.
- Safety guaranteed by side rails with locking system.
- Ease of movement with swivel wheels and brakes.
- Elegant design in natural beech finish, suitable for any environment.

FAQ:

- **What is the minimum and maximum height?**
The height is adjustable from 43 cm to 86 cm.
- **Are the side rails removable?**
Yes, thanks to the lock/unlock system.

- **Is the bed suitable for patients with reduced mobility?**

Yes, the electric movements make it ideal for patients with limited mobility.

- **Is it possible to adjust the sections separately?**

Yes, the headrest and leg section are independently adjustable via the control panel.

Mini buying guide:

Choose a 3-joint electric bed if you are looking for a versatile and comfortable product for hospital or care settings. Evaluate the maximum load capacity, available movements, and the quality of the materials. Always check for the presence of side rails and included accessories, such as the patient lift pole.
