

3-level meat and cured meats storage pallet h750_07

AISI 304 stainless steel pallet with 3 levels, featuring 12 folding rods and 96 hooks for seasoning and handling cured meats. Dimensions: W 1450 x D 650 x H 1900 mm.

The pallet for handling and seasoning meat and cured meats is a structured solution for environments dedicated to the drying, display, and prolonged seasoning of products. Made of **AISI 304 stainless steel**, it ensures robustness, durability, and ease of cleaning, essential features in cured meat production cycles.

The **3-level** configuration with **12 folding rods** (4 per level) and **96 hooks** allows for accommodating a large quantity of products, optimizing vertical space. The **6 integrated wheels** guarantee quick and practical maneuverability on any surface, reducing repositioning times.

Technical features

- Dimensions: W 1450 x D 650 x H 1900 mm
- Material: AISI 304 stainless steel
- Structure: 3 levels
- Folding rods: 12 (4 per level)
- Hooks: 96
- Wheels: 6
- Maneuverability: high on diverse surfaces
