

3-module urban furniture bench h140_519

Modular bench with a wavy and contemporary design, perfect for public spaces, parks and squares. Galvanized steel structure and okumè wood seat, equipped with an integrated USB socket for charging mobile devices. Dimensions: W 280 x D 82 x H 42 cm.

This **H140_519 urban furniture bench** is an innovative solution for furnishing modern public spaces, combining **eye-catching design, comfort and advanced functionality**. Its **wavy and dynamic shapes** integrate perfectly into urban and natural contexts, offering an elegant and welcoming seat.

The **perimeter structure** is made of **laser-cut galvanized sheet metal (2 mm thickness)**, guaranteeing **weather resistance and structural solidity**. Inside, a **reinforcement frame made of galvanized sheet metal profiles** ensures greater stability, while **adjustable feet** allow for perfect adaptation on any surface.

The **seat** consists of **okumè wood slats (40x20 mm section)**, fixed on shaped frames to offer **maximum comfort and durability over time**. The wood is treated to resist atmospheric agents and maintain its natural aesthetic even in adverse weather conditions.

Added value is provided by the **integrated USB socket**, located on the side and protected by a **closing flap**, which allows users to **recharge their mobile devices** while using the bench. The electrical system is housed in a **protected internal compartment**, ensuring safety and efficiency.

Thanks to **high-quality anti-corrosion treatments**, such as **hot-dip galvanizing, sandblasting and powder coating**, the bench is designed to **last over time**, keeping its aesthetic and structural characteristics unaltered.

The **3-module urban furniture bench H140_519** is a perfect complement to improve the liveability of public spaces with a touch of design and innovation. Contact us now for a personalized quote!

FAQ:

1. Where can this bench be installed?

It is ideal for parks, squares, shopping centers, pedestrian areas and designer public spaces.

2. Is the seat wood resistant to water and sun?

Yes, the okumè wood slats are treated to ensure durability and resistance to atmospheric agents.

3. How is the bench installed?

The bench is prepared for fixing with anchor bolts and expansion plugs, ensuring maximum stability.

4. Is the USB socket safe for outdoor use?

Yes, the USB socket is protected by a closing flap, and the electrical system is housed in a sealed internal compartment.

5. Is it possible to customize the color or finish of the structure?

Yes, the bench is available in various colors to adapt to different urban environments.

Mini buying guide:

When choosing an **urban furniture bench**, it is important to consider the combination of **aesthetics, resistance and functionality**.

This bench, thanks to its **wavy design and solid galvanized steel structure**, is perfect for integrating into any context, from modern city centers to green areas.

The **okumè wood seat**, in addition to guaranteeing excellent durability over time, offers superior comfort, while the **integrated USB socket** is an added value that meets the needs of modern users.

To ensure **maximum longevity**, regular **maintenance of the wooden parts** is recommended, applying **protective oils** to preserve their quality and aesthetic appearance.

Thanks to its **versatility, resistance and innovative design**, this bench represents a perfect solution for **improving the liveability of public spaces and offering an additional service to citizens**.

Urban furniture bench, steel and wood bench, modern design bench, bench with USB socket, bench for public spaces, resistant outdoor bench.
