

## 3-panel hospital screen h666\_09

3-panel folding hospital screen, steel and fire-retardant PVC canvas, 180 cm high, with mobile wheels for clinics and doctor's offices.

Modular screen designed for healthcare environments, clinics, medical offices and hospital departments. It ensures **patient privacy and confidentiality** during visits and treatments, creating a delimited and protected space within shared areas. The robust **steel** structure guarantees stability and durability over time, while the **3 folding panels** allow the footprint to be adapted to the needs of the available space. The **fire-retardant white plastic canvas** (M1 class) meets the fire safety requirements needed in medical environments. The **integrated wheels** allow easy movement between departments and stations without the need for disassembly.

## Technical specifications

- Panel dimensions: 2x70 cm and 1x60 cm
- Overall height: 180 cm
- Structure material: steel
- Number of sections: 3 panels
- Panels: folding for footprint reduction
- Covering: white PVC canvas, M1 class fire-retardant
- Mobility: wheels for agile movement
