

3-panel hospital screen in steel and PVC h654_12

3-panel hospital screen with 22 mm chrome steel structure and fireproof PVC fabric. Dimensions 150x163 cm, weight 9.5 kg. Self-supporting and easily transportable.

The **hospital screen h654_12** is a practical and essential solution to guarantee **privacy, hygiene and versatility** in medical and professional environments. Made with a **chrome-plated tubular steel structure** 22 mm in diameter, it combines **robustness and lightness**, fundamental characteristics in environments where frequent movement is required. The chrome material gives a professional appearance and ensures **superior resistance to corrosion** and wear over time.

The three panels, each measuring W. 50 x h. 163 cm, allow for **easy folding** and a **reduced footprint** when closed, making the product **easy to store and transport** even in small spaces. The **white fireproof PVC coating** has been designed to meet the highest hygiene standards, is **moisture resistant** and ensures an **effective visual barrier** to ensure **respect for patient privacy** during examinations, treatments or clothes changes.

Technical characteristics

- **Structure:** 22 mm chrome-plated tubular steel
- **Number of panels:** 3
- **Fabric:** fireproof PVC, white color
- **Single panel dimensions:** W. 50 x h. 163 cm
- **Total dimensions:** W. 150 x h. 163 cm
- **Weight:** approx 9.5 kg
- **Structure:** self-supporting and stable on any flat surface

Optional

- **Kit of 8 wheels** for 3-panel screen
