

3-seater bike rack for public spaces h729_53

Wood and metal 3-seater bike rack for public spaces. Galvanized steel structure with pre-treated wood uprights and decorative spheres. Dimensions: 111 x 39 x 62.5 cm.

The **3-seater bike rack for public spaces** (model h729_53) is a wood and metal bicycle rack developed for the setup and organization of parking areas. The device is designed to accommodate a **configuration of 3 side-by-side bicycles**, ensuring order and correct positioning of the vehicles. The structure combines different material elements: it features uprights made of pre-treated wood, finished at the top with decorative galvanized steel spheres, and wheel supports made of fully welded tubular steel. The entire metal section features a galvanized structure, specifically to guarantee high resistance to corrosion and the continuous action of atmospheric agents during permanent exposure in outdoor sites.

Technical features

- **Product type:** wood and metal bike rack for public spaces
- **Nominal load capacity:** 3 bicycles
- **Positioning configuration:** 3 side-by-side bicycles
- **Parking center-to-center distance (Distance between bicycles):** 38 cm
- **Material and finish of the uprights:** pre-treated wood
- **Ornamental elements of the uprights:** decorative galvanized steel spheres
- **Wheel support structure:** fully welded tubular steel
- **Anti-corrosion treatment:** galvanized structure for high resistance to corrosion and atmospheric agents
- **Overall geometric dimensions (L x P x H):** 111 x 39 x 62.5 cm
