

3-seater bike rack with frame holder h28713

3-seater bike rack in round steel tube with frame fastening. Anchoring: to be bolted to the ground. Dimensions: mm 1200x420x800h

Three-seater bike rack can be positioned near shopping centers, urban centers, stations, schools, parks and apartment buildings

The structure consists of a tubular steel frame with **black PE end caps**, and wheel-holder elements with supports for fastening the bike frame via chain.

To protect the structure from atmospheric agents, the metal parts are galvanized and powder-coated.

To ensure correct stability under full load, the structure is equipped with special pre-drilled plates for anchoring to the ground using expansion bolts.

Technical features:

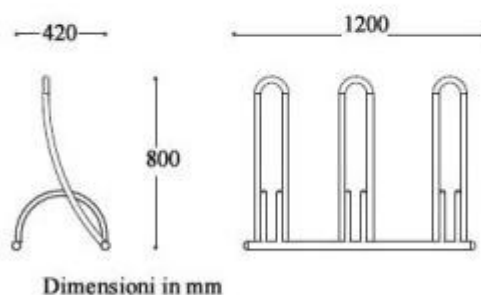

- Dimensions: mm 1200 x 420 x 800 (W x D x h)
- Structure: in galvanized round steel tube
- Tube diameter: mm 40
- Black PE end caps
- Chain holder in round steel tube diam. 25 mm
- Fastening: to be bolted to the floor
- **The product is supplied already assembled**
