

3-seater waiting room bench h1038_04

Professional 3-seater bench for waiting rooms. Ultra-robust steel and aluminum structure with perforated sheet metal seats, ideal for airports and hospitals.

The **waiting room bench h1038_04** is a 3-seater solution designed for furnishing high-traffic areas. Characterized by a technical aesthetic and superior structural resistance, this bench addresses seating needs in critical public spaces thanks to the use of **perforated sheet metal** for the seat and backrest. The combination of a **load-bearing steel tube beam** and aluminum armrests ensures long-term reliability, making it ideal for contexts where ease of maintenance and durability are essential requirements. The perforated design not only provides visual lightness but also ensures optimal breathability for the user.

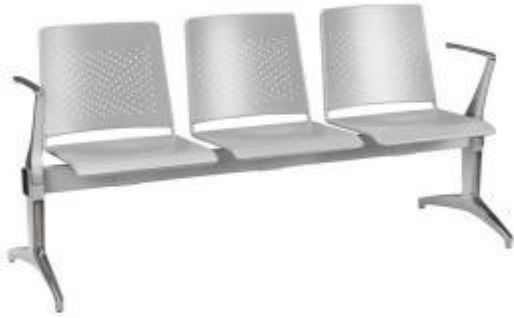

Technical characteristics

- **Capacity:** 3 independent seats.
- **Seat and Backrest:** Made of steel sheet with a perforated design.
- **Supporting structure:** Beam in robust steel tube.
- **Supports:** Legs and armrests in aluminum or high-resistance steel.
- **Configuration:** Modular system designed for large dimensions.
- **Materials:** Metals treated to resist wear and intensive load.
- **Ergonomics:** Shaped profile for lumbar support.
