

3-seater waiting room bench h776_88

3-seater steel and polypropylene bench with writing tablet and armrests. Dimensions 162x75.5x77.5 cm. Compliant with CAM criteria for public use.

The **3-seater bench h776_88** is a collective seating system designed to meet the requirements of robustness and ergonomics required in high-traffic environments. Designed for **medical clinics, public administration offices, training centers, and corporate waiting rooms**, this solution guarantees prolonged resistance thanks to the use of high-quality technical materials. Compliance with the **Minimum Environmental Criteria (CAM)** makes it a top choice for institutional supplies requiring certified environmental and performance standards.

Technical features

- **Supporting structure:** Central steel beam with a rectangular section of 80x40 mm, finished with black epoxy powder coating for long-lasting protection against wear.
- **Floor supports:** Inverted "T" legs in black tubular steel, complete with non-slip plastic caps and adjustable feet to ensure perfect leveling on every surface.
- **Seat and backrest:** Anatomical elements made of high-resistance polypropylene with a non-slip textured surface, designed for maximum postural comfort.
- **Seat frame:** Structure in 30x10 mm elliptical tubular steel with under-seat reinforcement crossbars and metal plates fixed to the beam via a bolted "U" bolt.
- **Integrated accessories:** Black nylon writing tablet equipped with an anti-panic joint and black nylon armrests with an internal steel structural insert.
- **Total dimensions:** L 162 x W 75.5 x H 77.5 cm.
- **Seat details:** Height from the ground 44.5 cm, depth 54 cm, backrest height 33 cm.
- **Configuration:** Seat and backrest available in various color variants for aesthetic integration in various furnishing contexts.
- **Assembly:** Supplied with a complete kit and assembly instructions.
