

## 3-section medical screen for clinics h666\_10

3-fold hospital screen, painted steel structure, height 180 cm, removable fire-retardant curtain, with wheels.

Modular screen designed for clinical and hospital environments, ideal for delimiting inpatient areas, outpatient clinics, and waiting zones. It allows for **protecting the patient's privacy** and creating functional separations in shared spaces, while ensuring ease of movement and space configurability.

The structure is made of **painted steel** and features **3 folding panels**, each equipped with **wheels** for easy movement. The panels are covered with a **removable M1 class fire-retardant fabric curtain**, which allows for cleaning and maintenance without compromising structural functionality.

## Technical features

- Panel dimensions: 2 x 72 cm, 1 x 75 cm
- Total height: 180 cm
- Frame material: painted steel
- Number of sections: 3 folding panels
- M1 class fire-retardant fabric curtain
- Removable curtain for ease of cleaning
- Wheels at the base of each panel for mobility
