

3-section wooden massage table h930_47

Professional 3-section wooden massage table in beech finish, L 2000 mm, with adjustable head and foot sections for physiotherapy clinics and wellness centers.

The **h930_47 table** is a technical solution designed for **wellness centers, physiotherapy and beauty clinics** that require a stable and highly versatile work surface. The structure, made of **wood with a beech finish**, is conceived to guarantee maximum mechanical resistance and prolonged durability, integrating with a sober design in high-level professional contexts.

The **3-section** configuration allows for precise modulation of the support surface: the head section and the foot section are independently adjustable to optimize the patient's posture and facilitate the operator's ergonomics during treatment. With a **load capacity of up to 200 kg**, the device ensures total safety even during dynamic manipulations or deep massages.
