

3-shelf ABS service trolley h418_144

Professional aluminum and plastic serving trolley with 3 shelves (80x50x97 cm). 120kg capacity, ideal for clearing service and mise en place.

The serving trolley **h418_144** is a professional tool designed to optimize clearing, dish transport, and mise en place operations within HoReCa contexts. The structure combines a lightweight and resistant **aluminum** frame with three **high-density plastic** shelves, ensuring a hygienic and easy-to-maintain support surface even in high-workload environments.

Maneuverability is ensured by the integrated double push handles and four swivel wheels designed to minimize vibration and noise, allowing the trolley to be used even in restaurant dining rooms during service without disturbing guests.

Technical features

- Overall dimensions: W 80 x D 50 x H 97 cm
- Configuration: 3 plastic shelves
- Supporting structure: Aluminum
- Maximum overall capacity: 120 kg
