

3-shelf dressing trolley in AISI 304 stainless steel h576_45

Hospital dressing trolley, length 1000 mm. With 3 shelves. 18/10 AISI 304 stainless steel.

The **dressing trolley** is used for the storage and handling of equipment that is essential during emergency interventions and patient care in hospital or clinic facilities. The structure is made of **solid Ø 25 mm tubular 18/10 AISI 304 stainless steel**. The **3 fixed shelves** with a **15 mm perimeter containment edge**, fixed with hidden bolts, allow instrument kits to be organized efficiently. The **two ergonomic handles** facilitate the transport of the trolley for healthcare workers. Included are **4 wheels (2 of which are equipped with brakes)** with a diameter of 100 mm.

Technical features:

- Length: 1000 mm
- Depth: 500 mm
- Height: 935 mm
- 3 fixed shelves
- 15 mm containment edge for each shelf
- 2 ergonomic handles
- 4 swivelling wheels, 2 of which with braking system
- Wheel diameter: 100 mm
- Material: Ø 25 mm tubular 18/10 AISI 304 stainless steel
- Ideal for movement on smooth surfaces
