

3-shelf service trolley h220_351

Chrome-nickel stainless steel service trolley with 3 shelves. 90 kg capacity, swivel wheels and sanitizable structure for professional use.

The **h220_351** service trolley is a technical solution designed for intensive handling in professional contexts where logistical efficiency must integrate with rigorous cleaning standards. Made of **chrome-nickel steel**, this tool guarantees high resistance to corrosion and mechanical stress, making it ideal for transporting tableware, medical equipment, or light industrial supplies.

The three-level configuration allows the useful supporting surface to be tripled within a limited floor space, facilitating staff work and optimizing internal travel times. The smooth metal surface and the absence of sharp edges facilitate daily sanitization operations.

Technical specifications

- **Material:** high-resistance chrome-nickel stainless steel
- **Configuration:** 3 shelves of 827x510 mm
- **Spacing:** 265 mm distance between shelves
- **Handling system:** 4 swivel wheels with 100 mm diameter
- **Total dimensions:** 920x600xh.945 mm
- **Load capacity:** maximum capacity of approx. 90 kg
