

3-shelf stainless steel service trolley h492_05

Professional stainless steel serving trolley with 3 shelves, welded structure, and 125 mm wheels. Ideal for catering and banqueting.

The **h492_05** serving trolley is an indispensable tool for operational efficiency within restaurants, catering services, and hotel facilities. Its construction entirely in **stainless steel** ensures superior resistance to corrosion and ease of sanitization, which is fundamental in the HoReCa sector. The structure is distinguished by a welded monoblock frame, composed of two robust 25 mm diameter tubulars bent into an arc, giving the trolley excellent structural stability even at full load.

The three loading shelves are designed with particular attention to **operator safety**: the edges are folded downwards and internally hemmed by 35 mm, eliminating any sharp surfaces. Furthermore, each shelf is equipped with a synthetic anti-vibration panel that drastically reduces noise pollution during the handling of dishes and cutlery.

Technical specifications

- **Material:** stainless steel
- **Structure:** welded frame with Ø 25 mm tubulars
- **Configuration:** 3 shelves with anti-vibration panels
- **Shelf dimensions:** 800 x 500 mm
- **Mobility system:** 4 swivel wheels Ø 125 mm (2 of which equipped with brakes)
- **Clearance between shelves:** 278 mm
- **Top shelf height:** 851 mm
- **Overall dimensions:** 895 x 595 x 960 (H) mm
- **Total weight:** 17.8 kg
